OBJECTIVE

As a fresher, I am seeking opportunities to join a company that can help me in enhancing my skills, strengthening my knowledge, realizing my potential. I am exploring a wide variety of opportunities that can help me to gain perspective.

EDUCATION

Bachelor of Electronics And Communication Engineering

2020 - 2024

K.S.Rangasamy College of Technology

First Class(75%)

12TH

2019 - 2020

M A M Matric Hr. Sec School

10th

2017 - 2018

M A M Matric Hr. Sec School

TECHNICAL SKILLS

FLUTTER

DART

API INTEGRATION

GET, POST

HTML

CSS

JAVA SCRIPT (BASICS)

INTERNSHIP

Yangoos technology - Flutter Internship for 10 weeks

CERTIFICATION

Flutter- Training and Certification in Greens technology.

2024

PROJECTS

Car Rental App Using Flutter-

The Car Rental App is a Flutter-based mobile application designed to allow users to browse, book, and confirm car rentals. The app integrates Firebase for user data management, including authentication and booking details. The main flow of the app includes several screens. The app validates this data before allowing the user to proceed to the Confirmation Screen, which displays the booking details. Once the user confirms, the app stores this information in Firebase Realtime Database, making it accessible for future reference. This setup helps in building a seamless user experience from browsing to booking a car. Future enhancements could include payment integration, search functionality, user profiles, and location-based services for an even more robust car rental platform.

Book Store App Using Flutter-

I created a bookshop app with Flutter that has an easy-to-use home page where users can peruse a list of books with thumbnails and brief summaries. When a user taps on a book, they are taken to a detailed page that displays all of the book's details, including the title, author, cover image, synopsis, publication date, and user reviews. I intend to improve the bookshop app in the future by including a shopping cart feature that will let users add books to their cart for easy purchase. I will also incorporate a secure payment gateway to ensure that transactions run smoothly and that users can finish their purchases without any issues.

ROLES AND RESPONSIBILITIES

Student Mentor

Class Representative

INTERESTS

Hybrid app development

Volley ball

DECLARATION

I hereby declare that the above information is true to the best of my knowledge.
